GATEKEEPER DESIGN: ADMIN USER > USERS

table header and alternating rows:

light grey: #e5e4e5

For maximum usability, the table should be sortable and searchable.

Add User is the same as Edit User... except the admin is required to enter their password. Password is also required for delete user, initiate password reset and resend activation token (when 2FA has not yet been setup)

RESEND ACTIVATION TOKEN

Success!

A two-factor authentication token has been resent to kwame@acme.com

Kwame must complete the setup process for two factor authentication within 24 hours.

INITIATE PASSWORD RESET

To reset Kwame's password, please enter your password

PASSWORD:

CancelGO

Success!

A time sensitive email has been sent to kwame@acme.com with instructions for resetting their password.

Back to Users

RESET TWO-FACTOR AUTHENTICATION

Success!

The two-factor authentication token has been reset for user: kwame.

At next login they will be prompted to re-authorize their device. An email has also been sent to kwame@acme.com informing them of this change.

Back to Users

GATEKEEPER DESIGN: ADMIN USER > VIEW USER

This is an edge case: resend activation button appears b/c the user has not yet setup 2FA

light grey: #e5e4e5

LAST LOGIN:

Open Sans Light

This is the typical case: 2 buttons appear in "Login Help"

Clicking on buttons generates a confirmation message via modal.
